PROFILE

Highly motivated and detail-oriented fresh graduate seeking a web developer position utilizing ReactJS. Committed to joining an innovative company where I can enhance and expand my skills while developing professionally.

WORK EXPERIENCE

Systems and Automation Intern

Optogrow Operations Management Solutions   January 2023 - April 2023

- Handled Webpages and automations using GoHighLevel for Growth4Trades.
- Created comprehensive documentation, including Standard Operating Procedures (SOP) and Changes/Issue reports.
- Quality Checking to ensure that everything is working.
- Demonstrated strong debugging skills by effectively resolving issues and addressing concerns.
- Taking care of project requirements to guarantee that tasks are delivered on time.

Mobile Application Developer Intern

ODR Technologies Inc.   August 2023 - October 2023

- Created detailed wireframes and mockups in Figma, aligning designs with the project's objectives.
- Transformed design concepts into functional app pages by utilizing Angular and Ionic frameworks.
- Debugged and troubleshooted issues within the app, ensuring a smooth user experience.

PROJECT

LOKAL: Android Route Replay Application

Emilio Aguinaldo College Manila   2022-2023

- Developed a GPS-based android Contact Tracing application that enables administrators to visualize a user's route in a day using Kotlin, Python, JavaScript, and Firebase.
- I was assigned to create a mobile application where I utilized Android Location to retrieve and store the coordinates of a mobile device.
- Assigned to create a function that allows for the uploading of a CSV file containing coordinates to Firebase.
